To Whom It May Concern:

Google is pleased to inform you that Alfred Persson Forsberg has successfully completed Google Summer of Code 2022, a program where accepted participants learn about open source software development by writing code for an open source project under the guidance of mentors.

Alfred was accepted into the program by, and developed open source software for, Gentoo Foundation, beginning June 13, 2022 and ending on September 12, 2022. Over that period, they passed their two evaluations conducted by their mentor receiving a stipend of 5400 USD for the project.

Alfred worked remotely on their project and was not required to visit either Google or the offices of Gentoo Foundation. Alfred Persson Forsberg was not directly employed by Google during Google Summer of Code 2022. The Google Summer of Code 2022 program was administered by Google from our corporate headquarters.

More information on Alfred's project can be found at:
